

*In a family, when one is sick,
we all suffer.*

*And we come
together to help.*

10 years and 18,000 stories of hope. Here's just one.

When Lindsey's son Jayland has a persistent sinus infection, the family made a trip to the emergency room, where a CAT scan showed the infection had found its way to Jayland's brain. Jayland had to have brain surgery, and Lindsey was away from work for several weeks. Lindsey's sister told her about the HCA Hope Fund. Lindsey says, "I've never worked for a company that offers something like this, and it truly is wonderful."

*In a family, when one suffers loss,
we all do.*

*And we come
together to help.*

10 years and 18,000 stories of hope. Here's just one.

Troilyn, her husband and three children were awoken in the early morning hours to find their home on fire. Troilyn said, "We lost the entire home." Then help arrived from the HCA Hope Fund. "We were just amazed at how strong the community support was, and how people at the hospital would care this much that they would donate to a fund that helps complete strangers."

*In a family, when one is hurt,
we all hurt.*

*And we come
together to help.*

10 years and 18,000 stories of hope. Here's just one.

Michelle and her family retreated to their cellar on May 19, 2013 as a tornado ripped through their neighborhood. Their house was destroyed but their family was safe. Their despair was met with caring from Michelle's colleagues across HCA. "The next day the money was in our account. It was like a gift from God. It came out of nowhere," Michelle says. Michelle and her family are back in their home now doing well. She has continued to give to the Hope Fund and encourages others to give.
