

Contractors recommended by HCA Healthcare

HCA Healthcare provided the points of contact list below for contractor needs in the areas of electricians, plumbers, mechanics, etc. in major cities impacted by the recent winter storm.

If you have repair needs and are having difficulty finding a contractor, reach out to the individual listed for your city below. These contacts do not necessarily perform the work themselves, but they are prepared to assist in referring you as they are able to other contractors who may have available appointments.

Community demand for these resources is very high right now and it is difficult to predict how quickly you can receive service. These individuals have committed to HCA Healthcare to do the best they can for our colleagues in these difficult circumstances.

The cost for work performed will be the responsibility of the HCA Healthcare employee. If the costs of the repairs create a financial hardship, the HCA Healthcare Hope Fund may be able to assist. Visit www.hcahopefund.com to learn more.
