## The Hope Fund Helped When a Major Health Crisis Occurred

Capelle Morgan is an HR Shared Services Coordinator who has worked with HCA Healthcare for six years. She has been contributing to the Hope Fund since shortly after she was hired, but never imagined needing it herself.

“I’m the primary caregiver for my mom Vicki who has a disability and heart problems. She recently had a health crisis which left her unable to talk or care for herself.” Viki was in the hospital for a month, and then in a nursing facility for another three weeks. Even after she returned home, she required in-home care for basic things like cooking, cleaning and taking care of herself. “That’s not something insurance pays for, unfortunately.” Capelle said.

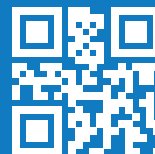

Thankfully, Capelle remembered the Hope Fund from contributing for so many years. She decided to apply for help.

When she learned that she would be receiving assistance, she said, “It felt like a ton of bricks had been taken off my shoulders.

Capelle is so grateful for the assistance from her colleagues. She said, “You should never be afraid to ask for help. That’s what the Hope Fund is there for. I know times are hard, but I really wish everybody would give even a dollar or two because you never know when you might find yourself in a position to ask for help.”
